HOW IT HAPPENED

(Jackson Daily News)

TILBO is now running around over the state saying that his job in the public relations division of the department of agriculture was a "puny, infinitesimal job."

It wasn't. The pay of that job was \$6,-000 per year, with a nice office and secretary. Do you consider that poor pay, ye folks who now applaud his silly mouthings?

Bilbo's trouble with that job was that he wouldn't work at it. He was supposed to sit in an easy chair, glance over the newspapers of the nation, and clip such items as might be of interest to helds of the various sections of the department of agriculture.

It didn't take those hardworking and keen-eyed Washington correspondents long to discover that Bilbo was loafing on his job; that papers were piling high in his office and no

attention paid thereto; that he was not even reporting for work with the regularity required of government employes.

It was then that the shafts of ridicule about which he now complains were launched. The front end of the Cry Baby Twins began to get what was coming to him. He was dubbed "Pasemaster-General," with his line added: "Not doing any pasting."

"It proved to be the most humiliating job I ever held in my life," says Bilbo-pay of job \$6,000 per year.

Would you feel humiliated, Mr. Bill Citizen, if you had a job paying \$6000 per year, and were willing to work at it? Very easy employment, understand, short working hours, comfortable office, private secretary to do the pasting, and all that sort of thing.

Well, that's the sort of loafer now running around over Mississippi and spilling slander on people who work hard for what they get.

PAT OR MIKE?

ET'S face this question fairly, Can Pat or Mike today Best serve the State and Nation And with the least delay?

Advanced to place and power, Pat stands in high esteem. The hero of the hour, The key-man of the team.

It took Pat years of toiling To reach this fair renown. Where Clay and Webster towered, And shall we drag him down?

Pat's hands are full of plenty For Mississippi's needs. He holds the keys to treasures, Let's follow where he leads.

No matter what his merit. If Mike should win the race. He could not thus inherit Pat's power, nor Pat's place.

These times are times for action. We dare not, will not wait. For Bilbo's fretful baby To gain his growth and gait.

I cast no stones at Conner, Nor Theodore, for that: But for our State's advancement, I'm bound to vote for PAT.

as America Goes Forward The railroads, like every other business in the land, have had their problems, and like every other enterprising business, have faced these problems with honesty and patience, with resourcefulness, most of all with determination to go ahead.

A vast range and variety of betterments in railroad practice and equipment is the result-air-conditioning, stepping-up passenger schedules to a point where many limited trains now average mile a minute speed, and speeding up freight transport-an average of 43%.
